

Quality Policy

Wiring Systems Division

Wiring System of the Future – Quality Policy

Our mission at LEONI Wiring Systems is to provide excellent products and services, maximising value for our company, customers, investors, and corporate partners.

Our dedicated employees consistently strive to enhance the quality of our products and services by utilising their knowledge and skills to the fullest extent, resulting in optimised efficiency and productivity levels.

LEONI strives to provide opportunities for employee advancement, encouraging an entrepreneurial mindset while continuously improving our quality management system and processes.

We are committed to delivering the highest level of quality and can assure you that no cost savings will compromise the quality of our services. Pro-active, risk-based thinking and the definition of preventive actions are the base to our target of ZERO defects.

We at LEONI believe that our success is closely tied to our adherence to our Corporate values. Our values of Care, Result orientation, Respect, Responsibility, and Collaboration guide us towards growth and development and inspire us to push forward towards excellence.

Our special focus will be on:

- Maintaining a high level of customer satisfaction
- Managing ramp-ups and changes in a professional manner
- Continuously improving our product quality and business efficiency
- Increasing the focus on digitisation and automation and standardization
- Encouraging our employees to have an entrepreneurial mindset
- Promoting the LEONI Corporate values
- Standardize our way of operating – LOS (LEONI Operating System) global roll-out
- Increase awareness on Product Compliance and implementation of a Product Compliance System
